UPDATE:
VST Initiates Online Product Training

01.24.14

VST's innovative approach to supporting the Gasoline Dispensing Facilities (GDF) segment of the petroleum industry has been expanded by adding a new educational tool to our website. The **VST Education** link is now active and may be found on the VST HOME page at www.vsthose.com.

VST Education offers the marketplace online educational opportunities like Authorized Service Contractor (ASC) certification training modules as well as product training videos. The inaugural launch of **VST Education** begins with:

- **Level A – VST EVR Hanging Hardware Training Module**
- **VST EVR Balance Field Reattachable Safety Breakaway – Repair Video**

Level A – VST EVR Hanging Hardware Training

- This ASC Certification is required by the State of California for anyone who repairs, tests, or troubleshoots VST EVR hanging hardware.
- Free of charge
- Available 24/7
- Simple turn-key process that begins by clicking the **VST Education** icon
 - Register
 - Complete the Level A Certification Module
 - Receive your certificate

NOTE:

- Re-Certifications are necessary every 2 years and DO NOT require re-taking ASC Certification Training **unless it is required by the regulatory agencies at the time of an Executive Order revision.**
- Complete an updated ASC Registration Form and submit it to VST's Training Coordinator.
- ASC Registration Forms may be found at http://www.vsthose.com/pdf/asc_registration_v3.pdf.

All other VST ASC Training Modules are fee based and will be coordinated through VST by first submitting a completed ASC Registration Form:

- Level B – VST ECS Membrane Processor Installation
- Level C – VST ECS Membrane Processor Functional Testing, Start-Up, Troubleshooting, Maintenance, & Repair
- Level D – VST GREEN MACHINE Processor Installation, Functional Testing, Start-Up, Troubleshooting, Maintenance, & Repair

Please contact VST's Training Coordinator – Susie McLaughlin – with any questions.
