

VST EVR Vac Assist Products

Reduce Risk

Increase Performance

Reduce Cost

Vac Assist – Low Perm Competitor in Slow Motion

Vac Assist – Low Perm VST in Slow Motion

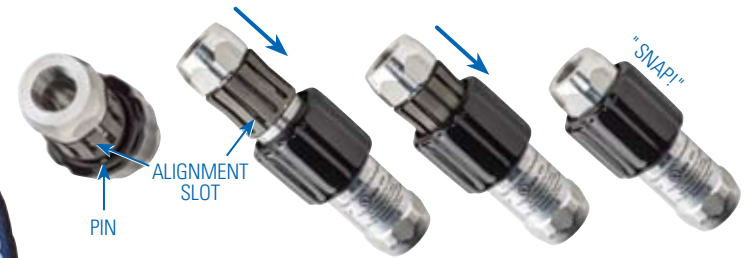

Reduce hose recoil from 30% to less than 10%:

- Less volatile & dangerous
- Limits equipment and vehicle damage

Scan for video

Ask Me How

Reattachable Breakaways:

- No need for additional pins
- Reduces hose recoil during a drive off limits damage to site equipment

Rigid Balance Couplings:

- Easier installation with less chance of leaks
- No O-Ring prevents liquid leak into vapor path, reducing the chance of ISD Alarms

Rigid
1-7/8 – 12 UN
(Balance
Converter Coupling)

Internal helix wire construction:

- Reduced kinking and damage of inner and outer hose reduces the chance of ISD alarms
- Increased flexibility eases use for a better customer experience
