UPDATE:
 SENTRY™ EVR Pressure Vacuum
 (P/V) Valves

10.01.24

VST has earned its latest California Air Resources Board (CARB) Enhanced Vapor Recovery (EVR) Certified product. The SENTRY™ VST-EVRPV series of Pressure/Vacuum valves is VST's first EVR Phase I approved product.

These patented, innovative P/V valves offer the marketplace a unique mechanical design without springs or diaphragms. A simple approach for longer life. Compatible with E0 to E85 fuel blends. There are two styles of SENTRY™ VST-EVRPV series

VST-EVRPV-100 is a top-mount model that can be installed near the top of the vent pipe. It can be used as a quick and easy replacement for any traditionally installed P/V valve.

VST-EVRPV-200 is an industry innovation that can be installed and tested at an easily accessible mid-mount vent pipe location. No need for a ladder or lift.

VST - October 1, 2024 List Price Schedule - New Product
